

REQUEST FOR EXPRESSIONS OF INTEREST**Contract Title: “Lifesaving Equipment”****Reference No: ND_C&P_131/ December 05, 2025**

OMV Petrom S.A. is interested in concluding a services frame contract for: “Lifesaving Equipment” for Neptun Asset.

Neptun Deep is a proposed offshore natural gas development in the Neptun Deep block, located in the Romanian sector of the Black Sea. The objective of the Neptun Deep project is to develop the natural gas reserves from the field. The gas fields are tied back to a normally unmanned Shallow Water Platform on the continental shelf. Sales specification gas is piped onshore to a Natural Gas Metering Station, before entering the Transgaz National Transmission System (NTS).

In support of Neptun Asset, OMV Petrom S.A. is seeking a contractor for Lifesaving Equipment Supply, Maintenance and Certification.

This Scope of Work (SOW) applies to the provision, maintenance, inspection, testing, and certification of all lifesaving and safety equipment, located on the Neptun Alpha offshore platform in the EEZ (Economic Exclusive Zone) of the Romanian Black Sea. Contractor is responsible for ensuring that each item is maintained in accordance with relevant international, national, and company-specific standards and regulations, including but not limited to SOLAS, IMO, and manufacturer recommendations.

In order to perform such services, the Contractor shall be authorized by Romanian Naval Authority and equipment manufacturer (VIKING).

The Contractor shall perform regular maintenance services and certification of lifesaving equipment, as well as any additional services requested by Company.

Maintenance services include, but are not limited to transport, inspection, recalibration, disassembly, repair, refurbishment or replacement of components, failure reporting, equipment testing, and certification, as specified herein. In addition to maintenance, the Contractor shall also be responsible for the supply of spares, consumables, and any special tools or equipment required for the execution of maintenance tasks.

The purpose of this provision is to ensure the continuous availability of critical spares and consumables, enabling immediate replacement of defective or worn components and minimizing equipment downtime.

The Contractor shall be prepared to supply new units or increased quantities of equipment upon Company's request, ensuring all supplied items meet the applicable technical specifications and certification standards.

Estimated duration of the Frame Contract: 5 years

OMV Petrom S.A. invites eligible companies to indicate their interest via an Expression of Interest letter attaching a description of the interested company, including any affiliates, contact data/ information (company name, representative person name, email address, phone number etc), presenting their relevant experience to perform such contracts (brochures, description of similar assignments, track record of similar experience).

Any potential joint venture/association should provide the above-mentioned information for all the partners of the association.

The tender process will be conducted using the SAP ARIBA platform. Companies must ensure they are registered in the SAP ARIBA platform or will register themselves on this platform upon receiving an invitation to register from OMV Petrom S.A., as this is a necessary condition to participate in this acquisition process.

After companies are registered in the SAP ARIBA platform, a mandatory pre-qualification questionnaire shall be completed in SAP ARIBA by each registered company. Only pre-qualified companies will receive the bidding documents.

We highlight the fact that in case of awarding the contract, according to the obligation provided by article 23 of Romanian Law 256/2018 regarding certain measures required for the implementation of petroleum operations by the titleholders of petroleum agreements relating to offshore petroleum blocks, if the Contractor is non-resident, it shall establish and maintain throughout the entire duration of the Contract a branch or subsidiary headquartered in Romania, according to the legal provisions in force, within 30 days from the execution date of the first Contract.

Expression of Interest letters must be delivered in a written form (in English language) to the below e-mail address until **December 19, 2025**.
