

## REQUEST FOR EXPRESSIONS OF INTEREST

### Contract Title: “Electrical Inspection and Maintenance Services for Neptun Deep Project”

#### Reference No: 358(ND)/13.05.2026

OMV Petrom S.A. is interested in concluding a frame contract for offshore electrical inspection and maintenance services to support operations at the Neptun Deep Asset.

Neptun Deep is a proposed offshore natural gas development in the Neptun Deep block, located in the Romanian sector of the Black Sea. The objective of the Neptun Deep project is to develop the natural gas reserves from the field. The gas fields are tied back to a normally unmanned Shallow Water Platform on the continental shelf. Sales specification gas is piped onshore to a Natural Gas Metering Station, before entering the Transgaz National Transmission System (NTS).

In support of its Neptun Deep Project, OMV Petrom S.A. is seeking a contractor to provide offshore preventive (planned) and corrective (unplanned) electrical maintenance, inspection, testing, repair, refurbishment and documentation services for normally unstaffed Neptun Alpha Platform, Field Support Vessels with logistic support from DANA34 in Constanta Harbor.

Estimated duration of the Frame Contract: 5 years, with option for further extension

The Scope of Work covers a comprehensive range of offshore and associated onshore technical services, as follows:

- Full-scope preventive and corrective maintenance for:
  - LV & MV Rotating Equipment (motors, alternators);
  - Power Transformers (LV/MV);
  - MV and LV Switchgear, Distribution Boards, MCCs, Local Control Panels (LCPs);
  - Power and Control Cabling, Terminations, Cable Trays, Junction Boxes;
  - Electrical Insulating Mats;
- Major Overhauls according to OEM and regulatory requirements;
- Inspection types: intrusive (shutdown-based) and non-intrusive (in service);
- Spare parts & consumables: Supply of OEM or OEM-approved parts and consumables as needed;
- Documentation: Full digital and hard copy for audit and CMMS integration;
- Compliance with Romanian law, offshore regulations, EU directives, OEM standards, IEC/IEEE/SR EN 60079.

**OMV Petrom S.A. invites eligible companies to indicate their interest via an Expression of Interest letter attaching a description of the interested company, including any affiliates, contact data/ information (company name, representative person name, email address, phone number etc.), presenting their relevant experience to perform such contracts (brochures, description of similar assignments, track record of similar experience).**

Any potential joint venture/association should provide the above-mentioned information for all the partners of the association.

The tender process will be conducted using the SAP ARIBA platform. Companies must ensure they are registered in the SAP ARIBA platform or will register themselves on this platform upon receiving an invitation to register from OMV Petrom S.A., as this is a necessary condition to participate in this acquisition process.

After companies are registered in the SAP ARIBA platform, a mandatory pre-qualification questionnaire shall be completed in SAP ARIBA by each registered company. Only pre-qualified companies will receive the bidding documents.

We highlight the fact that in case of awarding the contract, according to the obligation provided by article 23 of Romanian Law 256/2018 regarding certain measures required for the implementation of petroleum operations by the titleholders of petroleum agreements relating to offshore petroleum blocks, if the Contractor is non-resident, it shall establish and maintain throughout the entire duration of the Contract a branch or subsidiary headquartered in Romania, according to the legal provisions in force, within 30 days from the execution date of the first Contract.

Expression of Interest letters must be delivered in a written form (in English language) to the below e-mail address until 25th of May 2026, 16:00 hours (Bucharest time).
